The Basics.

Everything in one place.

FUEL 01

Protein

- Bodyweight in kilos x 1.5, every day.
- 30 to 40g before you leave the house.
- A palm of meat or fish is 30 to 35g. Three eggs is 19g.

FUEL 02

Fibre

- 30g a day.
- Beans, lentils, oats, berries, wholemeal swaps.
- Add it to one meal first, then build.

FUEL 03

The Shop

- One shop, early in the week.
- Work off a list.
- Send the list to whoever does the shopping.

FUEL 04

The Middle of the Day

- Decide lunch the night before.
- Protein in it.
- Don't leave a long gap between breakfast and lunch.

MOVEMENT 05

Walking

- Know your daily average.
- Keep your daily average over 8,000 steps a day.
- The more you get towards 10,000 or more, the better for your health.

MOVEMENT 06

Strength

- 60 minutes a week, minimum.
- Three twenty-minute blocks will do it.
- More than last week. Up the weight or up the reps.

RECOVERY 07

Sleep

- Light in your eyes early.
- Cool, dark room.
- Last coffee by two.
- Move during the day.
- Same bedtime, weekends included.
- Full list on the back.

AWARENESS 08

The Scale

- Monday and Friday. First thing, after the toilet, before food.
- Read the trend over the month.
- A jump in two days is water and food in transit.

AWARENESS 09

The Weekend

- Know what's coming by Thursday.
- Pick what you're having and what you're leaving.
- Weigh in Monday either way.

AWARENESS 10

The Review

- Two minutes, end of the week.
- Did I do what I said I would?
- What went well?
- What's next week?

The Food and Shopping List.

FUEL

Where the protein is

Chicken breast, a palm	30g
Steak or beef, a palm	30g
Turkey mince, a palm	30g
Salmon fillet	28g
White fish, a fillet	30g
Tin of tuna	26g
Tin of mackerel	20g
Prawns, a handful	20g
Three large eggs	19g
Greek yoghurt, a pot	17g
Cottage cheese, half a tub	15g
Whey shake, one scoop	25g
Firm tofu, a block	25g
Milk, a pint	19g
Cheddar, a thumb	6g

Rough guides. A palm is your palm.

FUEL

Where the fibre is

Cooked lentils, a mugful	10g
Chickpeas, half a tin	7g
Baked beans, half a tin	7g
Kidney or butter beans, half a tin	7g
Wholemeal pasta, a portion	6g
Raspberries or blackberries, a handful	5g
Half an avocado	5g
Pear, skin on	5g
Wholemeal bread, two slices	5g
Sweet potato, skin on	4.5g
Porridge oats, a bowl	4g
Spud with the skin on	4g
Almonds, a small handful	4g
Chia seeds, a spoon	3.5g
Frozen peas, a serving	4g
Apple or orange	3g
Hummus, a few spoons	3g

Target is 30g. Build up to it gradually.

FUEL

The combos

- Chilli — beef mince and kidney beans.
- Chicken curry with a tin of chickpeas through it.
- Greek yoghurt, berries, a spoon of chia.
- Beans on wholemeal toast with two eggs.
- Tuna with butter beans.
- Porridge made with milk, whey stirred in.
- Lentil and chicken soup, made in a batch.

Protein and fibre in the one dish.

FUEL

Snacks and extras

- Plain popcorn
- No added sugar jelly
- Sparkling water with orange dilute

FUEL

Dressings and condiments

- French's mustard
- Frank's hot sauce
- Yoghurt as a dressing base
- Olive oil and balsamic

MOVEMENT

The Two Protocols

EMOM — every minute on the minute

Set the timer for however long you have — 10, 15, 20, 25 minutes. At the top of each minute you do the reps, then rest whatever is left of that minute. Pick reps you can finish every round. You want to feel it towards the end, not be cooked after the first minute.

No kit at all
Minute 1 — 10 press-ups. Minute 2 — 15 squats. Minute 3 — 20 mountain climbers. Repeat.

Dumbbells only
Minute 1 — 8 thrusters. Minute 2 — 10 rows each side. Repeat.

Kettlebell
Minute 1 — 10 goblet squats. Minute 2 — 12 swings. Minute 3 — 8 press-ups. Repeat.

12-3-30 on the treadmill

12% incline, 3mph, 30 minutes. Start at 8 or 10 and build. Do not hold the rails. If you only have an hour: 30 minutes strength, 30 minutes on this.

RECOVERY

Sleep — what helps

1. **Light in your eyes early**
   Outside within an hour of waking. Five minutes.
2. **Cool and dark room**
   Cooler than the rest of the house. Blackout if you can.
3. **Last coffee by two**
   Half of it is still in you five hours later.
4. **Last pint earlier than you think**
   Drink breaks up the second half of the night.
5. **Finish the big meal a couple of hours out**
6. **Try not to chug water late at night**
7. **Move during the day**
   Movement of any type helps you sleep that night.
